For Storm Water Discharges Associated with Industrial or Construction Activity

When To File NOT Form:

Permittees who are presently covered under an issued NPDES or SWQ/OPDES general permit for storm water discharges associated with industrial activity may submit a **Notice of Termination (NOT)** form when their facilities no longer have any storm water discharges associated with industrial activity as defined in the storm water regulations at 40 CFR 122.26(b)(14), or when they are no longer the operator of the facilities. For a construction site, when the site has been finally stabilized (i.e., a uniform perennial vegetative cover with a density of at least 70% of the native background cover has been established for all unpaved areas and areas not covered by permanent structures or where permanent structures or where equivalent permanent stabilization measures such as riprap or gabions have been used), and all storm water discharges from construction activities that are authorized by general permit (GP-005A) are eliminated, or they are no longer the operator of the facility, a NOT must be submitted that is signed in accordance with part VI.G of the general permit. If you need assistance contact the Storm Water Quality office of The City of Oklahoma City at 297-1774.
