

## Application for Plant Extracting, Processing and/or Testing Operations Permit

The City of Oklahoma City Fire Department

This form shall be completed and signed by a representative of the property (site) applying for the permit(s). This application shall be returned with Site specific/Master engineering report. It shall be returned to the Oklahoma City Fire Marshal's Office at 2300 General Pershing Blvd. Oklahoma City, OK 73107. This application pertains to establishments or businesses that involve plant extracting, processing, and or testing operations. These unique operations create significant life safety and fire hazards; and shall be required to obtain all applicable annual operational permits from the Oklahoma City Fire Department – Fire Marshal's Office. New or existing plant extracting, processing, and/or testing related establishments or businesses may require construction permits or a change of occupancy. This may include access control systems, electrical modifications, addition or deletions of walls, modification to mechanical systems (exhaust hood systems), etc. Any other construction permits or change of occupancy permits can be applied for by contacting the Development Center at (405)297-3835 located at 420 W. Main, Oklahoma City, OK 73102.
