The builder/contractor must submit a Notice of Intent, Storm Water Pollution Prevention Plan (SWPPP) and a check for \$55.00 made out to City Treasurer in order to obtain a Storm Water Quality Management Permit prior to construction or soil disturbance at the site.

The builder/contractor assumes responsibility to maintain, avoid, or eliminate any actual or potential adverse effect upon the existing Best Management Practices (BMP's) and the environment according to the SWPPP, during all phases of building, construction, or delivery activity on any and all construction sites under the control and responsibility of the builder/contractor as described in the SWPPP.

The builder/contractor is certifying below that they assume all physical responsibility for any and all construction activities performed by the builder/contractor or under the direction and control of the builder/contractor, to avoid or eliminate any actual or potential effects upon the environment pertaining to the properties listed above.

Certification

I certify under penalty of law that I understand the terms and conditions of the Oklahoma Pollutant Discharge Elimination System Act (OPDES) General Permit that authorizes storm water discharges associated with construction activity from the construction site identified as part of this certification. I have read and understand Part 1. B. eligibility requirements for coverage under the general permit for storm water discharges from construction activities including those requirements published in the modified OPDES General Permit GP-005A of December 15, 1998 and the SWPPP.

I understand that continued coverage under this permit is contingent upon maintaining eligibility as provided for in Part 1. B. of the permit.
